

Vehicle progressive discipline policy

It is our intention to have a work environment where all employees follow written and verbally communicated company vehicle-use policies. In the event that an employee willfully violates these policies due to performance, conduct or safety violations, the employee shall be subject to a progressive discipline program as outlined in this document. It is our hope that with initial counseling of company policy violations the improper behavior will cease. Violation of company policies can result in counseling, suspension of driving privileges or termination of employment. Each employee has read, signed and agreed to follow the written company Vehicle-Use Policy.

STEP 1: COUNSELING AND VERBAL WARNING

Within five days of the violation, the immediate supervisor will schedule a meeting with the employee to discuss the violation and determine the best corrective action. The violation and corrective action will be documented. Both parties will sign the document to be retained in the employee's employment file. Depending on the severity of the violation, management reserves the right to move to step 2 or 3.

STEP 2: WRITTEN WARNING/SUSPENSION FROM WORK/POSSIBLE TERMINATION

Step 2 involves progression from Step 1 or a more severe violation. The immediate supervisor and/or the human resources manager will meet with the employee to discuss and document the violation and corrective action. Both parties will sign the document to be retained in the employee's employment file.

STEP 3: SUSPENSION AND POSSIBLE TERMINATION

Step 3 involves progression from Step 2 or a more severe violation. The immediate supervisor and/or the human resources manager will meet with the employee to discuss and document the violation and determine the course of action.
